PROFESSIONAL SUMMARY

Methodical, detail-obsessed **Financial Compliance Specialist & Structured Content Writer** with a formal foundation in **Information Technology (BSIT, South Mansfield College)** and **4+ years of regulated documentation, financial auditing, and technical writing discipline**. Trained in high-compliance institutional environments—including **Citi Financial Services (via Concentrix)** and **NRMA Insurance Australia (via WNS Global Services)**—where zero deviation from standard operating procedures (SOPs), exact verification of line items, and audit-trail integrity were mandatory.

Brings an **"auditor's reconciliation mindset"** to long-term SEO content production: treating briefs like balance sheets (tying out every subtopic, word-count target, and structural rule), executing strict style guides without creative drift, and writing **100% manually inside Google Docs** with transparent keystroke history. Currently on a streamlined **Part-Time Retainer (~10–15 hrs/wk)** as Master Writer for a premier US clinical health brand, maintaining dedicated, high-capacity bandwidth for high-volume article production (same-day / next-day turnaround).
