PROFESSIONAL SUMMARY

Careful writer and researcher who turns complex source material into short, plain-English drafts. Since November 2025 I have written scripts for a US health brand, where every claim must match the source research. Before that, for Australian insurance (WNS / NRMA) and US banking (Concentrix / Citi) clients, where accuracy was reviewed daily. I use AI tools as drafting aids, then verify names, numbers, dates and quotes myself, and I flag anything I cannot confirm instead of guessing.
